Snow Covers All of Island; Air, Highway Transport Hit

Snow in depths from three to 10 inches blanketed all of Vancouver Island yesterday, slowing highway traffic and stopping air traffic. There were no major accidents.

At midnight, Duncan, Nanaimo and Port Alberni reported snow was still falling heavily. Courtenay reported only a very fine snow.

Duncan reported four inches of fresh snow, making a depth of about 10 inches. Nanaimo and Port Alberni each reported six inches of fresh snow, boosting the depth to about 10 inches. Courtenay R.C.M.P. said 10 inches had fallen there.

Victoria's fall was officially 5¼ inches.

Roads in all sections of Vancouver Island were reported to be treacherous.

Heaviest damage among accidents reported to Victoria police was received by a car driven by John H. Gillis in a collision with a B.C. Electric Co. bus at Cook and Fairfield. The force of the collision spun the bus against a power pole, which was shorn off at the base, blacking out the district temporarily. No one was injured.

MEDIUM DAMAGE

Medium damage was caused to cars driven by Ernest B. Kay, 563 Island Highway, and Walter Martin, 2617 Doncaster, in a collision at Bay and Blanshard. Another collision at Hillside and Shelbourne also caused medium damage to cars driven by C. H. Elford, 605 Trutch, and Gordon F. Hartley, 1555 McMorran. No one was injured in either crash.

Late last night no evening accidents had been reported.

Snow plow and sanding crews of all municipalities and the provincial government worked throughout the day and in the evening.

Another weather effect was a layoff of about 30 outside workers at Victoria Machinery Depot yesterday, due to weather and a slack period of work.

TRANSPORT CUT

On the mainland, Vancouver reported 2.1 inches of snow with another four inches forecast. The Fraser Valley plane, rail and highway transportation facilities were disrupted by heavy snows.

Gale-force winds piled up snowdrifts, stalling a C.N.R. train 25 miles from Prince Rupert. It was rescued later by a snowplow. A westbound C.N.R. train from Terrace turned back in the face of snowdrifts.

Public works crews gave up attempts to keep the Terrace-Prince Rupert highway open.

Italians Planned to Attack New York by Submarine

ROME, Jan. 23 (AP)—A wartime Italian submarine commander disclosed today that Italy planned to attack New York City in December, 1943, with a small submarine, for psychological effect.

The commander, J. Valerie Borghese, wrote about it in the letters-to-the-editor column of the newspaper Roma.

He said a long-range submarine was to have carried an assault submarine close to New York and the little one was to have gone up the Hudson River "to the heart of the city" to make the attack.

"The psychological effect on Americans who had not seen any war action brought up to their own shores surpassed in the long run the material damage we could have inflicted," Borghese wrote.

The attack idea was abandoned after the armistice of Sept. 8, 1943, surrendering the Italian fleet, he said.

Navy Not Too Interested In Prince Robert House

Prince Robert House may not be just the berth the navy wants for a service centre, a naval spokesman told The Daily Colonist last night.

Mayor Claude L. Harrison yesterday reiterated his inaugural address hope that Prince Robert House will be turned over by the city for use as a hostel for members of the armed services.

But according to naval authorities, the building would need about $100,000 to renovate, and "even then, it may not be adequate."

Reports that the Y.M.C.A. building might be sold for a service centre were denied by general secretary F. V. Shoemaker, who said, "Positively no such offer has been made or considered."

Servicemen do have a place to amuse themselves in Victoria, Robert Morrison, program director of the "Y" asserted.

"We offer servicemen all our facilities for a monthly membership fee of $1," he said. "There is a free dance for them every Monday."

Mayor Harrison, in suggesting Prince Robert House as the site, expressed the view that the plan could be carried out at no cost to the city except release of the building.

FUNDS SOUGHT

He said he was negotiating with certain heads of the armed services here to obtain funds from the federal government for renovation of the building.

The mayor's suggestion will go to one of the standing committees for a report to council.

The drive for an adequate service centre in this area, touched off by The Daily Colonist last Sunday, has not yet reached the stage of active negotiation, but naval officers said last night, "We just cannot allow servicemen to roam the streets with nothing to do. It's bad for morale, and something must be done."

Ford Plant Facing Strike

WINDSOR, Ont., Jan. 23 (CP)—Ford of Canada workers will strike Sunday if the company does not accede to their demands, George Burt, Canadian director of the United Automobile Workers of America (C.I.O.-C.C.L.), said tonight.

He made the statement in an interview following a company announcement that Ford will not accede to union wage contract demands. The announcement came late today after the break-off of 1951 contract discussions which began last spring.

Wismer Gives Word On Liquor Plebiscite

British Columbians soon will have a full opportunity to express their views on the sale of liquor, Attorney-General Gordon Wismer said last night.

A liquor plebiscite will definitely be held at the coming general election, he said.

He also said that there was no intention of "slanting" the wording of the plebiscite.

Exact wording of the question will be decided by the cabinet. "I'll probably do it myself, if I'm still there," Mr. Wismer said.

He said the plebiscite would take in all aspects of the liquor situation.

The voters probably will be given several choices, two of which will be the sale of beer and wine with meals, and the sale of drinks in hotel cocktail lounges.

Mr. Wismer, in announcing the plebiscite, was repeating a pledge he made last March on behalf of the government.

"I can conceive of no circumstances under which it would not be held," he said.

Poison Suspected Cause Of Two Deaths on Island

CAMPBELL RIVER, B.C., Jan. 23 (CP)—The death of a commercial fisherman and an elderly widow at a lonely seaside home near here were being investigated tonight by R.C.M.P. Poison is suspected.

Police were working on the theory that the deaths were the result of a suicide pact or that it was a case of murder and suicide.

Dead are William Rockey and Mrs. Maria Boond, widow of a government fisheries inspector, both about 60 years of age.

Their bodies were discovered by a friend Tuesday night in Mrs. Boond's home at Quathiaski Cove, four miles east of here on Quadra Island.

In Victoria, R.C.M.P. superintendent C. W. Harvison said:

"At the moment we can only guess at what happened. But there would appear to be only the two alternatives.

LITTLE TO SAY

"Until we receive further evidence, there is little to say on the case."

Dr. N. B. Hall, coroner, ordered certain organs of the two sent to Victoria for analysis. An inquest was adjourned pending receipt of a report on this.

"The analysis has not yet been completed," said Superintendent Harvison, "and, until it is, we can't say definitely what the cause of death was, although it is believed to be poison."

Rockey and Mrs. Boond were last seen alive Monday night on the ferry which links the cove with Campbell River, police said.

Police said Rockey's widow lives somewhere on Vancouver Island. Mrs. Boond was well known in Campbell River and was active in community affairs.

Tide Turning For Nepalese

NEW DELHI, India, Jan. 24 (Thursday) (AP)—Nepal's newly-liberalized government is reported to have appealed for 2,000 Indian troops to help it put down a revolt, but the Indian Foreign Office said today the "tide has turned in favor of the government" of the Himalayan kingdom.

Indian officials indicated no troops would be sent because things appeared to be going better for the regime of commoner Prime Minister M. P. Koirala, whose Nepal Congress Party has close ties with India's ruling Congress Party headed by Prime Minister Nehru.

Reports reaching here said the rebels seized control of key points in Khatmandu, the Nepalese capital, Tuesday night but were dislodged by government forces.

Nationalists Capture Town

TUNIS, Tunisia, Jan. 23 (AP)—Tunisian Nationalists in bloody demonstrations against French rule rioted around the Sousse area today and seized control of the town of Teboulba.

At least 11 persons were killed in the day's disorders.

An authorized French source said Teboulba, 20 miles southeast of the port of Sousse, was "in the hands of uncontrolled elements" tonight.

He said the French planned an operation tomorrow to retake the town.

Seven Tunisians were killed today at Teboulba in a clash between police and Nationalists demonstrating for self-rule of Tunisia.

At Mokhine, a few miles away, three French policemen were killed.

A French lieutenant of gendarmes was killed when his detachment was ambushed near Menzel Bou Zelfa, south of Sousse.

Paratroopers End Search

ISMAILIA, Egypt, Jan. 23 (CP)—British paratroopers tonight ended their arms search of Arab Ismailia and pulled out after rounding up one "wanted" man and six other suspected nationalist guerrillas.

Mayor Will Return Pay If Elected as M.L.A.

Would Utilize $5,000 From City To Benefit Citizens of Victoria

By RAY BAINES

Mayor Claude L. Harrison intends to turn his $5,000-a-year chief magistrate's salary back to the city if he is elected to the provincial legislature.

"I don't want anyone to think I'm after two jobs. I don't want either of them for myself, for that matter, but I want to do something for this city," he said yesterday.

The mayor made the statement yesterday in reply to certain criticism of his recent announcement that he would run for the provincial legislature in the next election.

He said that if he was elected, he might stay on as mayor of Victoria "if the people really want me."

He said he would turn over the money, not for general revenue, but for some specific purpose which would benefit the citizens of Victoria. He mentioned, among other things, sponsorship of some civic entertainment for the children of the city.

REITERATES STAND

Mayor Harrison reiterated his previous statement that if he could secure promises from party candidates representing Victoria that they would carry out certain projects, he would not need to run.

These were completion of the west road to Port Renfrew, a $150,000 capital city grant for Victoria, pressing for city rights under the Terms of Union and guarantee of a park and beach at Goldstream.

"The only thing that could prevent me from giving the fullest time to both jobs would be my health. If that holds up, I will work hard for Victoria from both offices," he said.

He added that if he found he could not handle both positions, or if the people wished him to resign as mayor, he would do so.

Korean Front Flames Anew

SEOUL, Korea, Jan. 24 (Thursday) (AP)—Allied tanks poured more than 1,600 shells on Chinese troops on Korea's central front Wednesday as sharp fighting broke out all along the 145-mile battle front.

In a renewal of the air war, Russian-made Mig-15s and U.S. Sabre jets tangled twice in the skies over North Korea.

Revenge Claimed P.C. Aim

B.C. Progressive Conservatives are out for revenge, Alan MacDonell, M.L.A., told a party meeting in his home riding of Vancouver Centre Tuesday.

Mr. MacDonell was one of 10 Progressive Conservative members who followed their leader, former finance minister Herbert Anscomb, into opposition after the break-up of Coalition.

He said Premier Byron Johnson "drew his sword and lopped off our leader's political head."

But, he warned, "the premier will find next session that those who live by the sword die by the sword."

Mr. Anscomb told the meeting that every department administered by a Progressive Conservative in the Coalition administration had been "perfect in every way."

He demanded that the premier call an immediate election, with the achievements of each party during Coalition as the campaign issue.

Churches Ask Parley On Malan Race Laws

CAPETOWN, Jan. 23 (Reuters)—The Council of South African Churches today called for a national convention of all races to discuss Prime Minister Daniel F. Malan's white supremacy policy.

Its statement follows a major uproar in the current general assembly of the United Nations, culminating in a South African walkout in the face of criticism from several countries.

Appealing for a national convention, the council said joint consultation is the only means to promote peace and harmony among the races.

The church council represents all Protestant churches in South Africa except the Dutch Reformed Church, the country's largest religious body and one sympathetic to the Nationalist administration.

Methodist, Congregationalist and Presbyterian churches condemned the segregation policy at their own conventions.

BEFORE U.N.

It was an Anglican churchman, Rev. Michael Scott, who this month championed the case of the five Herero tribes of southwest Africa who wanted to appear before the U.N. to voice complaints about South African administration.

The case brought world-wide recognition to the racial issue here, although the government ignored the U.N. appeals and walked out of the organization, accusing it of meddling in internal affairs.

Malan has pursued his segregation policy ever since he gained power, although many people said it was fraught with danger for the whites.

These people pointed out that, against a white population of just over 2,000,000, there are 9,000,000 non-Europeans who want an active part in their government.

ALL ABOARD

With G. E. Mortimore

Husbands are a poor lot, says a woman writer in Weekend Magazine. Doyle Klyn, a working wife, claims that her mate can't clean house, wash dishes properly, cook, or find his socks.

"Of the 1,098,000 Canadian women employed outside the home, 322,000 are married," she says triumphantly. "And as both the cost of living and the demand for a higher standard of living increase, more wives will be leaving home to take what the Dominion Bureau of Statistics calls 'gainful employment.'

"And more untrained husbands are going to have to cope with meals and laundry and dishes. If, that is, they are civilized creatures who realize the chores should be shared if the wage-earning is."

The lady goes on to list several examples of male "helplessness" in the house, culled from interviews with working wives.

* * *

So the demand for a higher standard of living continues to increase, eh? Where does the demand come from, Mrs. Klyn?

The demand comes from women.

A man left to his own devices is quite happy to live in a warm one-room shack. He eats canned beans, bacon and eggs and horsemeat steak, sweeps the floor when the litter is too deep to wade through, wears old clothes and changes shirts when the geese fly south.

The location of his socks never puzzles him, because he has only two pairs. One is on his feet and the other is in the cupboard with the pots and dishes, where it belongs.

* * *

Behold the well-adjusted hermit. But one day sheer curiosity leads the fool from his little paradise into the world of women. Before he can gasp, some dame has sunk her painted talons in his flesh and led him off to play house.

Make no mistake about it, friends. He plays house her way. What else can a man do under hypnosis? The femme knows her trade.

Before he can say "homemaker," the man has dreamily tossed his old sweater in the garbage can and squeezed his reluctant bones into a dress suit.

He moves from his shack into a nine-room house with floors that need waxing, carpets that need beating and a furnace that needs feeding. Instead of two pairs of socks, he has 22, but he can't find any of them, because they are in a different place each day.

Then the man finds himself part owner of a refrigerator, a washing machine, some frilly curtains, an electric range, a vacuum cleaner and a baby. He never wanted any of these things. All he wanted was a woman, and now he is not even sure about that.

But somehow he has pledged his credit for the next 10 years to obtain the accessories. He works day and night to pay for a lot of articles which he never ordered in the first place.

When the finance company begins sending him bombs in the mail, he loses his nerve and suggests that his wife go to work. That's when his real martyrdom begins. The working spouse loses no chance to remind him that he is a dismal failure, unable to support a wife. And she mentions quite often that her daily appearance in the market-place makes more clothes necessary.

Naturally, then, she is entitled to spend all her own salary and a good part of her husband's as well, on extra expenses. She also demands that he share the domestic chores—which means, in woman-language, that he is supposed to do 90 per cent of the chores and submit to abuse if he doesn't obey the orders of the straw-boss to the letter.

Stay in that shack, gentlemen. It's cheaper and more comfortable.

Saanich Councillor Bate May Run for Legislature

Liberal nomination for the provincial riding of Saanich will be sought by Holland K. Bate.

Mr. Bate, 30, announced his intention of seeking the nomination from Saanich Liberal Association, after meeting with supporters yesterday.

He would oppose present M.L.A. Arthur Ash if Mr. Ash seeks to hold the seat.

"I feel younger men should take an active interest in politics," said the Victoria lawyer, who is now a Saanich councillor.

Mr. Bate is vice-president of Saanich Liberal Association and a director of Victoria County Young Liberals' Association.

With his announcement, Mr Bate also complimented Premier Byron Johnson for his stand against deposed Finance Minister Herbert Anscomb.

Technicians Test Gas Turbine Ship

SOUTHAMPTON, Jan. 23 (Reuters)—Technicians cruised up and down the English Channel Tuesday in the world's first merchant ship to be powered by gas turbine.

The ship, the Shell Petroleum Company's tanker Auris, was on a demonstration run on her return from her first experimental voyage to the Gulf of Mexico.

Board Delegate Picked

Councillor Grace Shaw is Saanich's representative on the Union Board of Health.

Mrs. Shaw, who is chairman of the health committee, was recently chosen by the municipal council.

Council also passed a recommendation that tenders be called for the purchase of carloads of four-inch and six-inch pipe, estimated to cost $20,000.

Payment will come out of the waterworks estimates.

A 207-signature petition was referred to the transportation committee. The petitioners want a new bus route via Quadra, McKenzie and Glanford, or a route via Quadra, McKenzie, Douglas, Ralph and Carey.

Congressman Near End Of Round-World Mission

SAN FRANCISCO, Jan. 23 (INS). — Congressman Peter Mack (D-Ill.) departing from San Francisco on the American leg that will complete his round-the-world goodwill flight, said today that the common people of the world cherish the hope of peace.

He left the San Francisco airport at 10.27 a.m. (PST) in the trim silver and red Beechcraft Bonanza that has already traveled 35,000 miles on a global goodwill tour.

He is on his way to Tucson, Ariz., where he will remain until he leaves for Dallas Friday. He will leave Dallas Sunday for Springfield, Ill., his starting point.

Congressman Mack wore the same good luck blue polka-dotted tie which he has worn throughout the flight.

He said the reception he received in San Francisco deeply touched him and added he would like "to quote someone. I've forgotten who it was, who said 'It's great to be an American but greater to be back in America.'"

He added: "The sentiment of the common people I met on my flight around the world and I did not concentrate solely on seeing high officials is much like that of us ordinary Americans. They want to raise their living standards and their children and they cherish, as we do, the hope that we all may live in peace."

On the subject of the Communist threat, he said:

"Communism can be contained, I feel, but it will require sacrifice on the part of every individual among us."

His flight, which he said cost him about $10,000, was paid for by subscription by his Illinois constituents.

Industry Urges Home-Building

TORONTO, Jan. 23 (CP) — The Canadian Construction Association today urged that more homes be built in Canada.

A resolution adopted at the association's annual meeting asked the federal government to recognize that an annual program of from 100,000 to 125,000 dwelling units should normally be considered as a minimum national target during 1952.

This compares with some 82,600 units in 1951 and 91,000 in 1950.

One resolution adopted recommended:

That persons or firms engaged in production or manufacture of material and equipment for use in the construction industry should quote on a basis of prices which shall be firm for the lesser term of one year or the period required to carry out the work for which the material or equipment is required.

Shipyard Federation Rejects Kuzych Bid

VANCOUVER, Jan. 23 (CP) — Welder Myron Kuzych today lost another round in his battle for union membership.

He sought to put his case before the Shipyard General Workers' Federation of British Columbia, but was refused.

Kuzych was expelled from Local No. 1 of the B.C. Boilermakers' Union in 1945 for publicly opposing the closed-shop principle.

The federation's executive has ruled that his right of appeal has lapsed.

"Kuzych does not now have any right of appeal," said Frank Flood, general secretary of the federation.

"The Boilermakers' and Iron Shipbuilders' Union, from which Kuzych was expelled, is no longer in existence and is therefore not a member of this federation.

"Under these circumstances the executive committee is of the opinion that it has no jurisdiction to hear an appeal."

Flood said the constitution of the old boilermakers' union called for an appeal within 60 days.

The Boilermakers' Union some years ago became part of the present 5,000-member Marine and Boilermakers' Industrial Union.

Oddities

OKLAHOMA CITY, Jan. 23 (AP) — A. C. Russell opened a letter from the veterans' administration to his wife, and learned he was reported dead.

A check of records showed Russell, who served 3½ years in the air force, blacked out recently from high blood pressure at a Shawnee, Okla., hospital.

He regained consciousness and was released.

Someone put a check mark in the wrong column on his medical report.

PORTLAND, Ore., Jan. 23 (AP) — Edward L. Sutton answered the bell at the back door of his northeast Portland home Tuesday night. A youth of about 17 stood there, then heaved a chocolate cream pie in Sutton's face. Sutton said he had no idea why, and didn't know the youth.

This is the third or fourth such incident here in recent months.

BOONVILLE, Ind., Jan. 23 (AP) — The automobile that had been parked in John Sturgeon's living room since last Oct. 21 was finally towed away Tuesday, after a court awarded Sturgeon a $4,000 judgment against the owner.

The car had run off a sharp curve and crashed into Sturgeon's home. Sturgeon got a writ of attachment to hold the car.

Last Gasp Wins Race For Steamer

PORTLAND, Ore., Jan. 23 (INS) — The sternwheeler Henderson defeated the sternwheeler Portland by a length today in a steamboat race to observe Oregon's covered wagon centennial.

The Henderson, 40 years old, blew a gasket after crossing the finish line and had to be towed back to its berth.

The Portland took the lead at the beginning of the race, but the [illegible] distance from the finish line and then put on the sprint that blew out the gasket.

The Portland blew a long blast on its whistle to salute the Henderson as the older craft crossed the finish line in the Columbia River off Sauvie's Island. The winner took 19 minutes and two seconds to cover the course of 3.6 nautical miles. The Portland's bow was a few feet ahead of the Henderson's stern.

Danger of Slides Calls Off Search

SUN VALLEY, Idaho, Jan. 23 (AP) — The danger of further avalanches caused forest service and Sun Valley officials to abandon temporarily today their search for three skiers buried beneath a snowslide on Baldy Mountain.

At the same time, the forest service barred all skiers from Cold Springs slope, one of the ski runs at the top of the mountain, because of the snowslides danger.

Funeral services were held today for the fourth victim of Saturday's snowslide, ski instructor Victor Gottschalk.

Plane Mishap Probe Starts

ELIZABETH, N.J., Jan. 23 (INS) — A six-way investigation was opened today into the air tragedy in Elizabeth which killed former U.S. war secretary Robert P. Patterson and 27 other persons.

Federal, state, county, city and airlines officials met in Elizabeth to try to determine what caused the American Airlines Buffalo-to-Newark plane to fall short of its mark and plunge through rain and fog into two [illegible]

It was the second major plane crash within the limits of the city of 113,000 population in 37 days, and it brought renewed demands from Elizabeth officials that Newark Airport be relocated.

In Trenton, Governor Alfred E. Driscoll checked whether he has the legal power to order all construction contracts at Newark Airport canceled pending a study of the airport's future.

The governor requested the legal opinion as a result of demands by officials of the city of Elizabeth and other nearby communities that the airport be eliminated entirely because of the danger of plane crashes.

Old Gag Still Works

Sold—One Gold Brick

MONTREAL, Jan. 23 (CP) — Police said today an "internationally-known opera singer" fell for the old "gold brick" dodge here to the tune of $18,000.

The singer, police declined to disclose his name, called in police yesterday and told this story:

Two men approached him here asking if he knew anyone who wanted to buy high-grade ore. The men said they had no money themselves but would share the profit on resale of the ore to another fellow who would pay twice the $18,000 original price.

The singer said he would buy the brick himself if the men could prove there was a third party who would pay $36,000 for it. The two men drove him to Malone, N.Y., where an accomplice said he was willing to pay $36,000.

That was enough for the opera singer, who returned here with the two men and paid $18,000 for a brick wrapped so that only one corner showed the "gold."

As the trio drove back to Malone, a black sedan gave chase and one of the singer's pals told him to "throw out the brick, it's the Mounties."

The singer complied.

The brick later was found to be a piece of lead lightly gold plated.

Malan Policy Retrogressive

SOONER or later the rigid racial supremacy policy of Dr. Daniel F. Malan, prime minister of South Africa, was certain to come into open conflict with western thinking on the subject. The clash came yesterday in the general assembly of the United Nations, where the South African delegation angrily walked out when that policy was under fire. While extremists have made too much of the conflict with their divergent claims, there is enough sound argument left in the middle to disturb thinking individuals to whom racial segregation and the supremacy of one group of nations over another smacks of schism and a backward lapse in human time.

The mere fact that Dr. Malan's policy can be, and has been, compared to the absurd racial theories of Hitler and his phantasma of a super race, in contradistinction to British policy which for generations has been grounded on the self-development of peoples through their own responsiveness and responsibility, would indicate that there is something wrong with South Africa's attitude under Dr. Malan's leadership. Other nations in the British Commonwealth have been loath to criticize a sister Dominion, but the general assembly of the United Nations is under no such handicap. Some plain truths were spoken in the discussion, and some at least of these things badly needed to be said.

Issues very much graver than the supremacy of Dr. Malan's party in South Africa are inherently bound up in the same question. If Dr. Malan were right, then nearly everything British foreign and domestic policies have stood for in the last 100 years would be wrong. But that historically is not the case? It is to be hoped that all parties in South Africa will take note of this sounding of free world opinion, and produce their own cure for what Dr. Malan calls an internal matter. True progress leads towards liberty, and not to fresh oppression.

HATS IN THE RING IN U.S.A.

The Community Chest

BECAUSE last year's Community Chest campaign fell far short of its objective, the agencies supported by this consolidated fund have only enough money at their disposal to see them through the first half of the year. After that, unless an additional $71,000 is raised by public subscription their humanitarian work will be curtailed, if not brought to a standstill. The hardship which would thus be caused to needy people who look to the Community Chest for help would be real indeed.

For this reason the Community Chest directorate, with reluctance and doubtless some misgivings, has decided to make a second appeal to the public on April 15 which, as in the autumn, will be of one day's duration. In that supplementary campaign the organization hopes to raise the extra money which is essential if the welfare agencies are to be able to carry on their good work to the year's end—a hope which should not be allowed to go unfulfilled.

It is not an enviable task the directors have undertaken, and the decision to break away from the long-established policy of once-a-year campaigns must have been a very difficult one; but it was either that or allow many praiseworthy charities to languish. The Community Chest, just as much as the householder, has been caught in the inflationary spiral, and perforce must turn again to its only source of revenue. It is to be hoped that the public will appreciate the reality of the situation and respond with the generosity needed to permit of the continued functioning of the many indispensable services which the Chest maintains.

Real Sincerity Is Lacking

IT IS such a truism that a change of heart would cure the world's ills that few people now pin their hopes on a fundamental shift of this nature. Yet the need of such a change is reflected anew in the utterances of General Pearkes since he came back from the United Nations Assembly in Paris.

Obviously the general has been disappointed in the atmosphere in which U.N. delegates sit to talk, ostensibly at least, the over-riding matter of world peace. There is a lack of the spiritual values without which no real progress can be made. Delegates are too suspicious of one another. There is too much backbiting, on both sides.

These conclusions have been apparent to followers of international events even at long-distance range. Only a week ago Mr. Vishinsky directed towards the West such remarks as "pigs" and "cannibals," terms scarcely calculated to promote any kind of amity. Likely enough this Russian delegate does not know what spiritual values mean, but those from this side of the iron curtain are expected to have at least a nodding acquaintance with the verities. Even among themselves, however, this is none too conspicuous.

One weakness of the U.N. is revealed again in General Pearkes' impression that "every speaker was speaking for the press of his home town." This unfortunately seems only too clear. The U.N. has become a public propaganda forum, so that delegates say what they feel constrained to say for appearance's sake, not what they might feel disposed to say were not the whole world listening. The failure of the U.N. in major matters to date is not solely due to so-called "open diplomacy," but undoubtedly this is a contributing factor of no small degree.

Replacing the Divots

A CORRESPONDENT, rightly, points out that in connection with the City Hall and politics Mr. George was mayor of Victoria when he accepted the Coalition nomination at the Esquimalt by-election. That is true, although Mr. George subsequently withdrew from the December civic election. Also, Mayor Harrison says that he made his own position clear during his mayoralty campaign. We accept that, too. Neither point alters our conviction, gained of experience, that the City Hall should be kept free from political or federal politics and the see-saw of their swings.

INITIATIVE PRAISED

Sir,—It is very refreshing these days to pick up the daily press and notice the work our new mayor is doing.

He certainly is digging into his job with a vengeance, and what a treat to see a public servant acting without fear or favor in the public interest.

Of him it can truly be said Victoria hath labored long but at last she hath brought forth a man.

Yours for clean government.

HOSPITAL INSURANCE

Sir,—Regarding the hospital insurance tax, I understand that $30 a year is to be levied on all those receiving the pension without the means test if their total income exceeds $600 a year. It would be interesting to know what proportion of the population is hospitalized in a year compared to those who are ill in their own homes. The average person in the elderly class is fortunate if able to get by without incurring from $20 to $60 a year for medical and dental attention. Everyone knows that a slight ailment in the elderly if neglected can lead to serious illness. It is by consulting a doctor, a stitch in time, that many are saved from having to go to hospital.

Inflation has now reached such a pitch that it is impossible for an individual to meet food and shelter, with adequate heat, for less than $55 a month. To this must be added the cost of bus fares, clothing, stationery, postage, medicine and of course medical attention.

Elderly pensioners, who have been struggling to live on $50 a month which was a generous allowance before inflation, now look pinched, anaemic and even hungry.

It must not be overlooked that the Dominion government's compensation allowance looks after men injured at their work, so they are not dependent on the hospital scheme. Then many firms, big department stores, etc., have sick benefits.

The $2.50 a month hospital tax should not, in all fairness, be levied on anyone unless his income is at least $785 a year. Those receiving from $650 to $749 might be charged $1 a month. Otherwise those people on tiny incomes are being made to contribute to the minority who are hospitalized.

But if the $2.50 a month tax is demanded of those whose incomes exceed $600, it should guarantee to pay their medical expenses for illness in the home.

G. PRINGLE.

1623 Belmont Avenue, Victoria, B.C.

POWER RATES

Sir,—When is there going to be a stop put to this continually raising of public utilities rates?

In reference to the remarks made by D. K. Penfold, he probably is in a position where he doesn't need to worry about a dollar here and there being tacked on to the household expenses each month. But if this condition continues, the man who keeps a household is going to have to use a wheelbarrow to enable him to carry home his earnings in order to buy the base necessities of life.

What I would like to know, in regard to the B.C. Electric rates is why does a person in a suburban area pay in excess of what one pays in the city? Surely the extra maintenance needed to supply power a mere eight miles from the city centre doesn't warrant this extra fee.

By the new rate schedule, if you live in a suburban area you pay six cents per k.w.h. for the first 60 k.w.h. and 2.5c per k.w.h. for the next 200 k.w.h.; as against five cents per k.w.h. for the first 60 k.w.h. and 2.5c per k.w.h. for the next 200 k.w.h. in the city.

This means for 260 k.w.h. used in the suburban areas the consumer pays $8.60 plus tax as against $8.00 plus tax for the same amount of power in the city.

Now that the B.C. Electric Co. has been granted this increase, should there not be some adjustment made in this regard?.

Thinking Aloud

". . . of shoes—and ships—and sealing wax—of cabbages and kings."

By TOM TAYLOR

THERE is blue blood, blue murder, and once in a blue moon. And there is, as you know, Blue Monday, with captials. I believe Blue Monday was once black, but now it's just—sort of gloomy color.

Or so they say, and so saying make us conform.

To wit. It was a Monday, and true enough the skies were bluey, when a colleague from along the hall stepped with me off the bus downtown. En route the conversation hadn't been too spicy—my fault, no doubt—so it wasn't surprising that as we walked along the pavement she stopped suddenly . . .

At a hat shop window!

"There," says she with just the right touch of drama, "is the only true-blue antidote to a Blue Monday." And what was she pointing at? You've guessed it.

One of those wisps of felt, feather and a button that to feminine eyes constitutes a hat.

* * *

I'm treading on dangerous ground, but I'll be wary. . . .

The dictionary says a hat is a covering for the head, but then it was a bald lexicographer, male, who coined this definition. No women would ever dream of thus denigrating one of those bon-bon dishes that roost so precariously, and so picturesquely, over one eyebrow.

How could they, for a lady's hat does not cover.

It isn't meant to.

No, not even in Darkest Africa, where the primitive belles pile conical whatnots on their topnots until they have to creep out of their mud huts on hands and knees. They don't need hats, as coverings, but they need them for social or magic significance.

There's the cue, in Ubangi or in Victoria.

The social angle is beyond my ken, since milady drapes her crowning glory with hanky or feather according to mood and occasion, but as to the magic!

Who dare deny the magic that from a hank of hair, a buckle, a piece of straw, can produce—presto!—a creation no woman can resist. A felt box, a star-spangled net, a silk saucer—all the same. Magic.

Or so milady thinks.

And why not? Especially on a blue Monday. Look how blue the hat stores would feel, Monday right through to Saturday, if these concoctions ceased to fascinate.

* * *

Said my colleague from along the hall, elaborating:

"Yes, the only real antidote. A man might go and have a drink if he feels down in the mouth, but we girls need a new hat. Look now, isn't that something?"

I looked.

In the middle of the shop window was an oversized hot-cross bun, painted blue, with a little threadless bobbin on the side of it and a piece of gauze hanging down.

"Y-e-e-s," I agreed, but my lagging tongue betrayed me.

"Oh, you wouldn't understand. Why my dear man, a new hat put's a woman on a cloud. Cherrio." And she disappeared inside the shop.

Now I've got it. The author of that famous song, "There's a Long, Long Trail," once said he liked calm hats but "Give me a wild tie, brother, one with a cosmic urge!"

There you are. The cosmic urge.

That's what accounts for all those fairy tales you see perched cockily on milady's head. They take her out of this world, into a realm no mere man can follow. They're a mental cocktail, just the thing for a blue Monday.

Well, I guess every Monday would be bluer if it weren't for gals like my colleague along the hall, whatnots on their topnots and all.

The Suez Canal

By D. K. DOHERTY, From Ottawa

ONE of the principal current problems of the Middle East has a geographical basis. It concerns the use of land, sea and air routes through the region. Of these, the most important is the Suez Canal—a link in world sea communications significant to the region itself and vital to the countries of the Atlantic and Indian Oceans.

The present Suez Canal is the modern expression of a long-held desire for water communication between the Mediterranean and Red Seas. From 1200 B.C. into the Arab regime, a canal connected the Nile with the Red Sea. A thousand years later world intercourse made such a link necessary again. Built under the leadership of Ferdinand de Lesseps, the new canal permitted vessels to pass directly from sea to sea.

The canal cuts across the Isthmus of Suez, which is not marked by any outstanding physical obstacles. Forming part of the same depression (rift valley) that contains the Red Sea, the isthmus has been built up through a combination of uplift of the earth's crust and deposition by the Nile River and Red Sea. Today the whole area is flat and sandy, nowhere more than 50 feet above the level of the sea.

* * *

The uniform character of the isthmus enabled a relatively straight sea-level canal to be dug. Of 101 statute miles, approximately 88 are in a straight line. Swamps and former lake depressions make up the canal route, but more than three-quarters of the total length is ditch proper. Immediately out of Port Said the route stretches through the swamp of Lake Menzala between dikes. Through the lakes, dredged channels provide a deep water route. Lesser depths bound the deep water on either side, 19 to 25 feet in Lake Timsah, 18 to 42 feet in Great Bitter Lake and about 17 feet in Little Bitter Lake.

* * *

Since the Suez Canal was opened in 1869 its traffic has increased greatly. Simultaneously its dimensions have become too small. Improvements have produced a canal with an overall depth of 42 feet, and a varying surface width. South of Port Said the width is about 390 feet. Most of the canal is 295 to 330 feet wide. The width of the bottom has grown from 72 feet to 148 feet and 180 feet on the bends. One of several post-war projects presently under way will add an additional 20 inches to the depth, thus accommodating large tankers which form a vital part of Suez traffic.

Widening and deepening have not solved all the problems arising from the use of the canal by a greater number of larger vessels. Grounding dangers and shore disintegration from shipwash have held transit speeds to seven to eight knots. In addition, the width of the waterway did not permit approaching ships to pass while both were in motion. It was necessary for one vessel to tie up while another passed. Night traverses diminished this delay somewhat as did a convoy system. Under the latter arrangement 10 ships moved in one direction at a time each, with a Suez Canal Company pilot on board. However, convoys could pass only in the lakes and delays of 24 hours were becoming increasingly common; especially because of the bottleneck in the Port Said-Lake Timsah section.

This is to be met by cutting a by-pass canal from Ballah to Ferdan. Named after the king of Egypt, the Farouk by-pass extends for 7¼ miles and permits the passage of vessels in a most critical section and thus alleviates delays in transit.

The King's Holiday

(From The Ottawa Journal)

THE little Natal village near which the King will spend his South African holiday is called Sezela—an old Zulu name which means "Can I Help You?" It lies drowsily among the fragrance of a typical Natal setting of exotic sub-tropical flowers and vegetation. The Journal is informed by the South African government office in Ottawa. In the nearby woods, through which a winding road passes, are wild monkeys, buck, the continually-cooing bush doves and birds of every kind and color.

The whole atmosphere of the house in which the Royal visitors will live is, itself, one of peace and comfort. From the air the house looks like a mansion, though it is in fact a scaled-down model of a gracious old Cape homestead. It has two double bedrooms, four single rooms, a living-room, dining-room and large hall. The furniture is heavy, old-fashioned teak.

The house is built on a gentle slope rising from the Indian Ocean, and from its open stoep there is a clear view of the surf and the private beach. The roof is red tiles, and each of the two wings is graced by a large white gable. The parklike lawns and terraces are planted with brilliant shrubs and flowers, and pergolas covered in bougainvillia form part of the back garden. Surrounding the premises is a well-kept golf course.

The residence was built 30 years ago for Sir Frank Reynolds, a Natal sugar baron, who gave it to General Louis Botha, South Africa's first prime minister. Since his assumption of the premiership Dr. Malan has spent two holidays there; and on one occasion the minister of defense, who had to see Dr. Malan on important business, landed on the terrace in front of the house in a helicopter.

Fun, Fact and Fiction

SUBTLE TRUTH

The proprietor of a British Columbia factory with 18 employees is pleased with himself these days over a subtle triumph he and truth have had in some labor negotiations. Where the original draft agreement said "hours of work," he got it changed to read, "hours of employment."

The Printed Word.

A drunk was walking along the boulevard when he bumped into a tree. "Excuse me, sir," he apologized. Continuing his way, he collided with another tree and apologized again. "Oh, do forgive me, madame." Half a minute later another tree came in his way. "I am so sorry," he said with exaggerated dignity. Then, lurching over to a bench, he sat down. "I'll have to wait until this procession has passed," he muttered.

ANTI-INFLATION MAGIC

Gusii witch doctors in Kenya have found a novel method to combat inflation and, especially, to arrest the spiraling price of brides which is hitting the British East African colony. They are casting an evil spell on the violators of the matrimonial ceiling price imposed by the tribal leaders. This use of black magic to stamp out the black market on the Black Continent has been rendered necessary when the "lobola," or bride-purchase, price soared from six cows and a bull or 10 goats per wife in prewar days to 16 cows and one bull or 20 goats at present for the same piece of merchandise.

Magic sanctions by incantation have been pronounced against the daring tribesmen who disregarded price stabilization measures, and bought their brides "on the black"—and the culprits all have died within a short lapse of time after the curse.

The inflationary curve on the bridal market has been checked.

The Packsack

Of GREGORY CLARK

AMONG the interesting news items arising out of a recent meeting of fisheries' research men at Ottawa was this: that a means of keeping lobsters alive in a salt-water imitation of sea water has been discovered. Thus inland regions of Canada may enjoy fresh lobster on a basis of equality with the maritime Canadians. Prejudices and myths die hard, or slowly. And one of the oldest American myths is that seafood does not properly survive shipment inland from the coasts. For a good many years now methods of fast freezing and special shipment of seafoods have been in operation in this country. And a great deal of money has been spent by the government and the fisheries industry in trying to dispel that prejudice.

* * *

There is not a city in Canada that has not got a restaurant specializing in seafood. Some cities have had a regular succession of them. But the use of seafoods in the homes of inland Canada is still very limited. Seafood is a novelty in most homes, as when somebody sends a half-barrel of oysters from a coastal city; or, on a party occasion, a few live lobsters are boiled up, in celebration.

To what extent is seafood a novelty, even in the coastal cities? Few inland Canadians go to a maritime city without immediately seeking out the best seafood restaurant and indulging in a feast. The question is: are most of the customers of these seafood restaurants in Halifax, Boston, Vancouver and San Francisco mere islanders off on a seafood spree? Or do the seaboard people support these restaurants unaided by pilgrims?

The answer to that would decide the question as to whether seafood is a novelty everywhere. For if it is, it would put the entire fisheries question into a new perspective. And save a lot of lobsters some pretty weird adventures.

Jet Brakes

ONE of the first things the pilot of a jet aircraft has to learn is not how fast he can go but, much more important, how fast he can slow down. And the designer of a jet plane or missile has the corresponding task of putting "reins" on the aircraft while it is in mid-air. He does so by fitting air brakes, and these have now become a compulsory item on all new Air Ministry specifications for jet aircraft.

The reason is that the smooth lines of the jet fighter of today produce so little drag that slowing it down would be a very slow process if it were not for the air brakes. The pilot can no longer rely on the piston-engine age technique of idling the propeller, nor can he lower the undercarriage to produce drag—if he did, it might tear off because of the high speed.

* * *

Primary use of the brakes is in descending. The jet pilot has to operate high up in order to use his fuel economically. When the times comes to descend he cannot afford to dive slowly or he would burn up fuel at about 10 gallons an engine a minute. Yet if he dived straight for the ground, say in a vertical dive from 50,000 feet, the wings might come off in the pull-out—if, that is, the pilot had the strength to pull out. All current jet fighters and bombers are capable of supersonic speeds in steep dives, though such speeds may be beyond their structural strength, so the designers' problem has been to produce an aircraft that will dive without getting up to these high Mach numbers and speeds—and the only way to do so is to use air brakes.

Secondary uses of the brakes are for avoiding a collision, or for slowing down to join up with a formation. And if a jet pilot suddenly finds himself in cloud, flying on instruments, his first automatic reaction is to use the air brakes—otherwise he may easily find himself approaching the plane's critical Mach number far too fast to stop.

In appearance the air brake is simply a metal panel which protrudes out of the wing or fuselage surface to cause drag.

A Vision of the Future

For I dipt into the future, far as human
eye could see,
Saw the Vision of the world, and all
the wonder that would be;

Saw the heavens fill with commerce,
argosies of magic sails,
Pilots of the purple twilight, dropping
down with costly bales;

Heard the heavens fill with shouting,
and there rain'd a ghastly dew
From the nations' airy navies grappling
in the central blue;

Far along the world-wide whisper of
the south-wind rushing warm,
With the standards of the people plunging
thro' the thunder-storm;

Till the war-drum throbb'd no longer,
and the battle-flags were furl'd
In the Parliament of man, the Federation
of the world.

There the common sense of most shall
hold a fretful realm in awe,
And the kindly earth shall slumber
lapt in universal law . . .

In the opinion of the Canadian Federation of Agriculture, the climb of the Canadian dollar to par with the American dollar may be a feather in Canada's cap, but it has brought financial trouble to western wheat producers.

Because of this parity, the federation has decided in a **Montreal** meeting to seek a higher price for Canadian wheat.

Reason for the trouble is the fact that the wheat price was fixed at $1.80 (U.S.) per bushel for No. 1 Northern. This meant that the farmer, when the Canadian dollar was roughly 10 per cent below U.S. currency, got $1.98 per bushel, Canadian. Now . . . the price is off 18 cents per bushel.

Conference Set On Resources

More than 300 are expected to attend the fifth annual British Columbia Natural Resources conference to be held here Feb. 27 to 29.

Invitations are being sent to the province's executives in many industries, and subjects ranging from climate to coal, petroleum and natural gas resources will be discussed. Agriculture, wildlife and power are also on the agenda.

H. L. Purdy, director of research for the B.C. Electric Railway Co., will preside over the general sessions.

Among the speakers will be Federal Agriculture Minister J. G. Gardiner, George J. Alexander, B.C. deputy minister of fisheries; J. M. Buchanan, president of B.C. Packers, and B.C. Agriculture Minister Harry Bowman.

Municipalities To Discuss Tax

Members of the Union of B.C. Municipalities will hold a special meeting in Vancouver Feb. 12 to deal with the question of distribution of revenue from the provincial sales tax.

It is expected the whole schedule of municipal shares in the provincial tax revenue will be under discussion.

Mayor Claude L. Harrison recently urged that the division of municipal shares should be based on sales volume rather than population.

It is understood some of the smaller municipalities, however, have drafted a plan which is aimed at the payments received by the larger B.C. cities.

Railway Barge Ready Shortly

The huge railway barge built by V.M.D. for the C.P.R. was towed to inner harbor docks of her owners Tuesday. Finish work will be handled there, and soon the vessel will enter service between Vancouver and Vancouver Island ports.

Inter-Municipal Body Will Know Fate Shortly

A decision on whether or not to continue the inter-municipal committee formed last year will be made soon, Reeve A. C. Wurtele of Esquimalt said yesterday.

Reeve Wurtele said he would meet with Mayor Claude L. Harrison to discuss the question and [illegible] Saanich and Oak Bay councils also will be asked whether they wish to continue the committee.

Reeve Wurtele said some of the committee's work might be handled by the Capital Regional Planning Board.

Garbage disposal by incineration was discussed briefly by the inter-municipal committee last year. The subject probably would [illegible] committee's agenda if it continues operation, the reeve added.

Oak Bay United Hears Reports

A total of $16,300, one-third of it for missionary and benevolent purposes, was raised last year by Oak Bay United Church, the annual meeting was told.

Church membership was reported at 498. Officers reporting were F. G. Matkin, chairman of the board of stewards, A. R. C. Hebden, Sunday school officer, and J. H. Britton, treasurer.

The Women's Association report was tendered by Mrs. W. Stewart. Mrs. F. G. Matkin presented a report on the Women's Missionary Society. Full reports of other organizations also were given.

Officers elected for 1952 were J. B. Clearihue, K.C., Major G. Whelan, Mrs. K. Reilly, W. L. Rippon, J. H. Britton, J. R. McLennan, H. Pullen and A. J. Bowering, all to the board of stewards.

Re-[illegible] G. W. Lane, J. Boyd, A. R. C. Hebden, E. R. Patrick and W. H. Sutcliffe were elected to the session. John MacArthur was elected auditor.

Appreciation of the leadership of Dr. and Mrs. W. W. McPherson was expressed by Mr. Clearihue, K.C. Rev. F. R. G. Dredge, former minister of the congregation, brought greetings to the meeting.

NORWEGIAN ALUMINUM

OSLO (CP).—Norway's three aluminum plants produced 50,000 tons in 1951, with another firm producing over 1,500 tons of refined aluminum. A fourth big plant expected to be ready in 1954 is expected to boost this total by 40,000 tons a year.

Window Contest Gets Off to Fast Start

The Daily Colonist-Odeon Theatre-Merchants' Window Contest got away to a fast start yesterday with entries received at the theatre only a few hours after the contest opened.

The identifying picture and the contest entry box were both printed in Wednesday morning's Colonist. That is all the equipment necessary to enter the contest, which ends Saturday. Entries should be mailed or taken to the theatre.

The puzzle can be solved by visiting the stores listed below and seeing the section of the billboard in the windows. The photograph in Wednesday morning's Colonist shows the entire poster with the sections numbered. Pick out the number of each section and write the name of the store in which it is exhibited after the same number in the entry box.

The seven-part main prize in the contest is valued at approximately $50. In addition, there are 10 consolation prizes of guest tickets for two to the Odeon Theatre.

The Odeon started the prize-list off with passes for two for two months.

The stores displaying sections of the billboard poster in their windows, and the prizes offered, are:

Ingledew's (Victoria) Ltd., 749 Yates, a $5 gift certificate; Fowler's Children's Shop, 734 Yates, a $5 gift certificate; the Pet Shop, 1412 Douglas, a garden ornament; Watson's Men's Wear, 1435 Douglas, a man's shirt; the Island Florist, 755-A Yates, a floral display; Bernard Ltd., Sporting Goods, 1410 Douglas, a $5 gift certificate.

By error, the Pet Shop at 1412 Douglas was incorrectly listed yesterday.

All entries should bear the name and address of the contestant printed clearly.

FOR THURSDAY, JAN. 24, 1952

Today's quotation — "Those who would give up essential liberty to purchase a little temporary safety deserve neither liberty nor safety."
—Benjamin Franklin.

Thursday for everyone—Morning and early afternoon offer the best spans of the day for expressing a constructive slant on things and for exerting yourself. Get things done. Late afternoon and evening: be patient; use dietary, health discretion.

Look for your birthdate and birthsign below.

March 21 to April 19 (Aries)—Morning and noontime: attend to primary items on your calendar. Exert tact, graciousness later.

April 20 to May 30 (Taurus)—Mold arrangements to suit prevailing conditions; don't fuss about revisions in program.

May 21 to June 20 (Gemini)—Benefit through use of vitality and funds in morning and around noontime. Feel your way cautiously afterward.

June 21 to July 22 (Cancer)—Get around in morning and at noontime. Tender whole-hearted support, but don't expect a full measure in return just yet.

July 23 to Aug. 22 (Leo)—Give evidence of your abilities at work in morning. Avoid mental meanderings, idle talk later.

Aug. 23 to Sept. 22 (Virgo)—Exert your talents or have fun until after noontime. Consult the budget before you heed the call of pleasure in late afternoon and evening.

Sept. 23 to Oct. 22 (Libra)—Remain serene in the face of possible complications in late afternoon and evening. You should find a "happier ending" in morning and at noon.

Oct. 23 to Nov. 21 (Scorpio)—Schedule visits, contacts, trips in morning or early afternoon. Later: Stay put.

Nov. 22 to Dec. 21 (Sagittarius)—Discharge bills or call in sums due you; initiate gainful measures in morning and early afternoon, after which protect assets.

Dec. 22 to Jan. 19 (Capricorn)—Show yourself in your best light this morning and early afternoon. Use skillful tactics with elders later in day.

Jan. 20 to Feb. 18 (Aquarius)—Finish things; find solutions in morning and early afternoon. Later: veer away from idle talk, sensitive souls.

Feb. 19 to March 20 (Pisces)—Plan congenial pursuits for morning and/or noontime. Take "time out" from social doings; follow routine afterwards.

Planning ahead — Good for sociability, entertaining, etc.: Jan. 29, Feb. 10, 11, 12, 13, 16, 19; daytime of 20, 25, 29.

Logging, Sawmill Work Shut Down by Snowfall

Heavy snows on Vancouver Island are slowing and shutting down logging and sawmill operations, trade union officials reported yesterday.

At least 500 workers are unemployed in the area south of Duncan, they said. Five small mills employing a total of 80 men closed yesterday because of snow.

Throughout the coast logging district, it was estimated that about 90 per cent of the woodworkers have been laid off due to weather conditions.

Vancouver reports said it was estimated 10,000 woodworkers are now unemployed because of weather conditions on the coast.

Many Attend Funeral Of George Blackstock

Funeral services for George Blackstock, 18, only son of Police Chief John Blackstock, were held yesterday at McCall Brothers' Funeral Parlor.

Attending the service were more than 350 friends, relatives, civic officials, members of the Camosun Gyro Club and the Victoria Chapter No. 17, O.E.S. and members of the city police department.

Rev. J. L. W. McLean officiated. More than 50 cars traveled over icy roads to Royal Oak Burial Park.

Six uniformed pall bearers were in attendance. They were Sgt. William Andrews, Sgt. Robert Davidson, Constables Keith Hollett, Albert Wells, Eric Rossiter and William Boyd.

The average declarer could improve his scores enormously by devoting more attention to one department of the game, safety plays. For example:

South, dealer.
Both sides vulnerable.

NORTH
♠ A 7 6
♥ J 8 5 4
♦ A Q 10 5
♣ J 3

WEST
♠ Q J 10 8 2
♥ 9 6 2
♦ 7 4 3 2
♣ K

EAST
♠ K 9 5 4
♥ 10 7 3
♦ 9 6
♣ 10 9 8 7

SOUTH
♠ 3
♥ A K Q
♦ K J 8
♣ A Q 6 5 4 2

The bidding:

South	West	North	East
1 ♠	Pass	2 N.T.	Pass
4 ♣	Pass	5 ♣	Pass
6 ♣	Pass	Pass	Pass

After making a jump response of two no-trump on the first round, it was somewhat indiscreet of North to raise South's club rebid on jack-small four diamonds at this point would have been better from several different angles.

West opened the spade queen. Dummy's ace won, and declarer led the club three to his own queen. West smothered this with the king, and South soon learned, to his disgust, that another trump loser was unavoidable.

Beyond argument, it was bad luck to lose a trick to the singleton club king and another to the 10-9-8 combination remaining in East's hand—but it would have cost South nothing to guard against that very possibility! Let's consider South's original problem.

At best, South would have to lose at least one trump trick, with the K-10-9-8-7 of the suit at large. He would have to lose two trump tricks if either defender had started with the king and three others. If this was the case, however, there was nothing to be done about it, so the best plan was simply to forget it. Similarly, if clubs broke 3-2, any reasonable line of play would turn out all right, so South could forget about that also. The one possibility that required thought was the singleton king, and to guard against that, South should have led low from dummy and played the ace. If the king dropped, the safety play would have been vital; if it didn't, it would cost nothing.

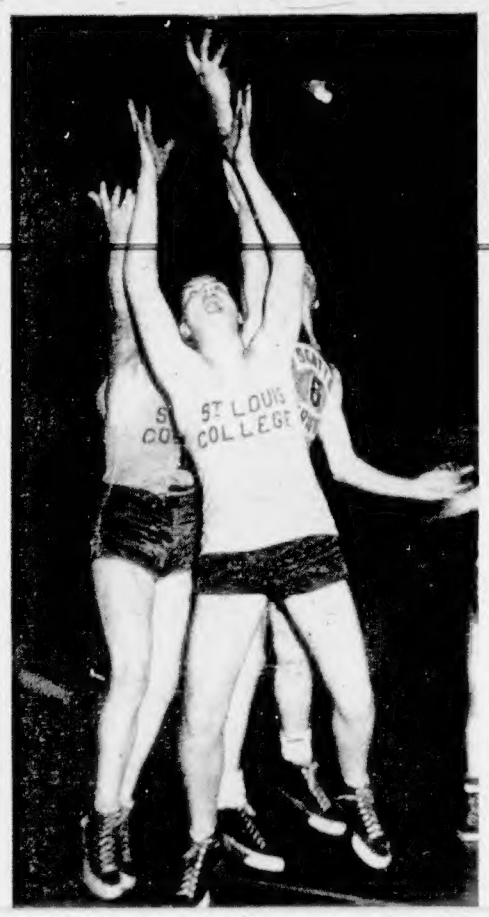
Scott & Wright Tops St. Louis



Typical of action during feature game of basketball card at Victoria High School last night is scene showing Brian McCreadie of Scott & Wright outjumping two St. Louis College players in scramble for ball. Scott & won first game of best-of-three series for junior boys' city championship, 61-17.

Half-time prep talk was all Scott & Wright needed to go on to one-sided victory. In second-half, winners ran up total of 37 points compared to six for St. Louis College. Listening to talk by Coach Dave Gray are, from left, Colin Creighton, Hugh Creighton, Merlin Hawes, Garry Corbett, Dave Paynter, Mike Partridge and Brian McCreadie.—(Colonist photos by Jim Ryan.)

Merchants Break 7-Up Jinx; Army, Navy Suffer 6-4 Losses

Civil Service	5	6	1	46	53	11
Army	4	7	3	41	51	11
Individuals	4	8	2	46	55	10

Next games tonight: Individuals vs. Merchants; 7-Ups vs. Army.

Victoria Merchants have finally broken the season-long jinx that the league-leading 7-Ups squad has held over them.

Last night at the Memorial Arena, Merchants skated to a convincing 3-1 win over the Bottlers, but can thank their acrobatic goalie, Art Ellis, who broke the hearts of the goal-hungry 7-Up forwards with a sensational display of netminding.

The win moved the Merchants within three points of the pace-setters, with only five games remaining in the schedule.

Outskating, outfighting and generally outplaying the off-color Bottlers, they bore little resemblance to the team that has dropped three previous encounters to the Bottlers this year, each meeting with first place at stake. Whenever the going got rough, Ellis rose to the occasion with brilliant stops and kept the usually potent 7-Up forwards at bay until the 18-minute mark of the final frame.

EARLY LEAD

Rudy Pishko shot the winners into a first period lead when he took a pass from Bill Jensen and beat Phil Bremner with a bullet drive to the corner. Bob Coulter scored what proved to be the winning goal at the 8.50 mark of the third frame, but the Bottlers, not to be denied, stormed to the attack and were rewarded when Ab Wiebe scored on a slap shot to break Ellis' shutout.

At this point, 7-Ups elected to yank their goalie in favor of a fifth attacker, but the strategy backfired when Ken Gunter outskated the defending backs and fired the puck in the empty goal.

CLEANERS TRIUMPH

Individuals, making their first start under new Coach Steve Harris, couldn't have given him a better present as they dumped Army 6-4. The youthful Cleaners led 2-1 at the end of the first period, split a pair of goals with the soldiers in the second and [illegible] the game by an odd marker in the third frame.

Kowalyk paced the winners with a goal and four assists, while Hallam led the losers with a pair of tallies and an assist.

NAVY UPSET

Civil Service supplied the surprise of the evening when they sank Navy 6-4 to move into a fourth-place deadlock with Army. The Tars spotted the Servants an early 2-1 lead and held a 3-2 edge at the end of the first frame. Navy bucked up a bit in the last two periods but bad clearing, combined with an alert Friesen in the Servants' nets, foiled any hopes of a Navy win. McColl picked up a hat trick for the winners, his last two markers putting the contest on ice early in the third frame.

Calgary	44	14	25	5	164	193	33

Next game, tonight: Vancouver at Calgary.

New Westminster Royals stretched their undefeated streak in the Pacific Coast Hockey League to nine games last night by battling Tacoma Rockets to a 3-3 tie at New Westminster. Royals were last beaten by Victoria Cougars on Dec. 22.

The single point enabled Royals to retain their two-point lead over the runner-up Saskatoon Quakers, who were held to a 2-2 tie by the Flyers at Edmonton. Flyers moved into a fourth-place tie with the idle Seattle Ironmen, two points behind Tacoma.

Brilliant work by goalies Lucien Dechene of Royals and Doug Stevenson of Rockets preserved the tie at New Westminster after Gordie Fashoway's 33rd goal of the season evened the count at 3-3 late in the second period.

QUICK RALLY

Royals took a 2-1 first-period lead but Rockets struck for two quick tallies early in the second stanza to set the stage for Fashoway's tying goal. Guyle Fleider returned to the New Westminster line-up after a lay-off of two weeks with an injured shoulder and set up two goals.

Despite the 10-2 shellacking the Flyers took at Saskatoon Tuesday, a crowd of 4,470 turned out at Edmonton last night. Flyers held an edge in the first two periods, twice taking the lead, and goalie Bill Brennan rose to the occasion in the final period to preserve the tie.

Quakers' tying goal was credited to coach Doug Bentley when his 25-foot screened shot ricocheted in off an Edmonton stick.

ALL ALONE

Tonight's only action pits Vancouver Canucks against the Stampeders at Calgary. A win for the Stamps will leave Victoria Cougars in sole possession of the cellar.

Tomorrow the Cougars will attempt to halt Royals' undefeated skein when the clubs tangle at Memorial Arena. Vancouver and Edmonton clash at Edmonton.

Agar Holds Slim Margin Over Ed Dorohoy, Kaleta

Calgary's George Agar is stubbornly clinging to his one-point lead on the Pacific Coast Hockey League's individual scoring race.

Agar has 56 points, one more than Saskatoon's Alex Kaleta and Ed Dorohoy of Victoria.

There are eight players who have scored 50 or more points. Others are Ollie Dorohoy and Gordy Fashoway of New Westminster, Frank Kubasek of Edmonton, Joe Bell of Seattle and Johnny Chad of Saskatoon.

Fashoway leads the goal-scorers with 33, five more than runner-up Bell. Eddie Dorohoy is the leading play-maker with 39 assists.

LEGER MOVES UP

Victoria's Roger Leger picked up three points Tuesday to move within two points of Seattle's Danny Sprout as the league's high-scoring defenseman. He has two games in hand over the Seattle veteran and has scored four more goals.

Lorne Davis Joins Canadiens

LORNE Davis, who had a brief trial with Victoria Cougars last year, was called up by Montreal Canadiens of the National Hockey League last night. He will appear in the Habitant line-up tonight as a replacement for Cliff Malone, who is being returned to Montreal Royals of the Quebec Senior Hockey League after a three-game trial on a lend-lease basis.

Davis began the 1951-52 season with Buffalo Bisons of the American Hockey League, was sent to Vancouver where he was one of the sparks that made the Canucks a winning team after a disastrous start, and was recalled by Buffalo.

Next games tonight: Montreal vs. Chicago; Toronto vs. Detroit.

TORONTO, Jan. 23 (CP).—The injury-riddled Montreal Canadiens came up with a three-goal second period outburst tonight to defeat the second place Toronto Leafs 4-2 in a National Hockey League game before a crowd of 13,329.

PENALTIES HURT

Playing without Maurice (Rocket) Richard, Bernie (Boom Boom) Geoffrion and two or three other injured players, Canadiens took advantage of Leaf penalties to put the game on ice in the second stanza. In this period all their goals came with a Toronto player in the penalty box.

Max Bentley scored his 17th goal of the season to give the Leafs a 1-0 first period lead and Canadiens, who hadn't won a game since Jan. 12, roared back in the middle period with Dickie Moore, Elmer Lach and Billy Reay the marksmen.

MOORE STARRY

Toronto stormed back throughout the last 20 minutes, sending up five men but the Canadien defense held out. Rudy Migay cut Canadiens' lead 3-2 at 6.15 of this period but Moore, one of the best players on the ice, notched his second counter on the best play of the night.

The young rookie took a pass from Lach at the Montreal blue line, coasted in on goalie Al Rollins with Toronto defenseman Jim Thomson almost draped around him, and back-handed one that Rollins didn't even see.

Lach's goal and assist moved him into a tie with Gordie Howe for the individual scoring lead.

Leafs outshot Canadiens 31 to 25.

SUMMARY

Montreal (2nd) McNeil, defense, Bouchard; Johnson, Harvey; St. Laurent, MacPherson; forwards, Lach, Curry, Olmstead, Gaudin, Moore, Reay, Meger, MacCormack, Mainor.

Second period—2, Montreal, Moore (Lach) 8.43; 3, Montreal, Lach (Malone) 14.39; 4, Montreal, Reay (Meger, Moore) 18.31. Penalties—Olmstead 2.23, Morrison 8.08, Flaman (major) 11.59, MacPherson 13.59.

Third period—5, Toronto, Migay (Watson, Merkley) 6.15; 6, Montreal, Moore (Reay) 9.47. Penalties—Flaman (misconduct) 15.09, Meger 18.43.

Stops—McNeil 11, 13, 7—31; Rollins 8, 10, 16—28.

Cabinet Word Due Very Soon

OTTAWA, Jan. 23 (CP).—The cabinet today held a 4½-hour session with a heavy agenda of business, but no official announcements were forthcoming.

It is believed that the council may have put the finishing touches to two important announcements expected to come from Prime Minister Louis St. Laurent in the next day or so.

One, expected tomorrow, is the announcement of the appointment of Louis O. Breithaupt, Liberal member of parliament for Waterloo North, as lieutenant-governor of Ontario to succeed Hon. Ray Lawson.

The other, which may come Friday, is the appointment of Rt. Hon. Vincent Massey, chancellor of the University of Toronto, as Canada's first native governor-general, succeeding Viscount Alexander.

Aussie Junior Tops U.S. Best In Tennis Meet

ADELAIDE, Australia, Jan. 24 (Thursday) (AP).—Defending champion Lewis Hoad knocked young Hamilton Richardson of Baton Rouge, La., out of the Australian junior tennis championship today with a 3-6, 6-4, 6-1 victory in the semi-final round.

The favorites advanced to the semi-finals in the men's singles of the Australian championships but defending champion Dick Savitt ran into unexpectedly tough opposition.

The American star was held to five sets by Ian Ayre before he won out, 6-1, 6-4, 5-7, 4-6, 6-4.

Top-seeded Frank Sedgman turned back fellow-Australian Don Candy, 7-5, 6-1, 6-4.

In other all-Australian quarter-final matches, two of Sedgman's team-mates on the Aussie Davis Cup squad, Ken McGregor and Mervyn Rose, completed the round of four. McGregor defeated Geoff Brown, 6-4, 6-2, 12-10, while Rose shaded Ken Rosewall, 6-4, 6-4, 5-7, 2-6, 6-2.

Edmonton Dumps Hopes Of Far-West Grid Circuit

EDMONTON, Jan. 23 (CP).—Any hopes that Edmonton Eskimos might hook up with Calgary Stampeders and Vancouver's proposed football team in a three-team far-western grid circuit were squashed tonight in Edmonton.

Al Anderson, executive secretary-manager of the Eskimos, issued a statement in answer to certain publicity appearing in Calgary, Vancouver and Winnipeg. This publicity said that there was a possibility of the three cities joining in a far-western league if Calgary left the Western Interprovincial Football Union.

Calgary threatened to pull out of the W.I.F.U. when the Vancouver application to join the union was turned down last week end. Stampeders' decision is to be made Thursday night at a meeting in Calgary.

STAND CLARIFIED

Anderson's statement read:

"In order to remove any doubts in the minds of football fans of Western Canada, the Edmonton Football Club wishes to make its position clear:

"1. The Edmonton club intends to maintain its allegiance to and connection with the W.I.F.U. regardless of what changes may occur.

"2. The Edmonton club hopes that Calgary will make public at the earliest possible opportunity its intention to field a team in the W.I.F.U. this year.

"3. The Edmonton club will attend a meeting called at any time by the W.I.F.U. to reconsider the Vancouver application for entry into the league this year, and will support the application.

"4. The Edmonton club intends to field a team in the W.I.F.U. this year, however it may be constituted."

Weather, Top-Heavy Bill Keep Hoop Crowds Away

Weather and the weight of three scheduled lower division games combined to ruin any chance the Victoria and District Basketball League had of enticing a reasonable crowd to the opening of its annual playoffs last night.

Ninty-nine per cent of the spectators who flocked to the Victoria High School gymnasium were a small group of Mount View High School students who watched their favorites roll to a 33-24 victory over St. Louis College in the first game of a best-of-three series for the intermediate "B" boys' title.

In the first game of the junior boys' playoffs, Scott & Wright showed no mercy to a short-handed St. Louis College team and racked up a 61-17 triumph.

The snow not only stopped the fans from coming out but it also prevented two junior girls' teams, C. & C. Taxi and Eaglettes, from turning out for an exhibition match which was billed as the middle fixture on the program.

INDIVIDUAL STAR

Gary Corbett was the individual star of the evening, pushing up 18 points for Scott & Wright, more than enough to outscore the opposition. Merlin Hawes with 15 and Colin Creighton with 12 helped in the rout.

Line-ups:

St. Louis College—Martin 3, Clarkson 7, Morrison 4, Sleep, Hitchcot, O'Neill 18, McGhee, Total 34.

Mount View High School—Boswell 7, Prior, Grainger 4, Murray 8, Pringle 2, Pritchard 5, B. Knudsen 6, R. Knudsen, Catsford 1. Total—33.

St. Louis College—Rittich, Lungre 6, Houden, Blum 9, Dawson 2, Latta. Total—17.

Scott & Wright — Corbett 18, M. Creighton, McCreadie 3, C. Creighton 12, Partridge 10, Paynter 4, Hawes 15. Total—61.

Remember When . .

A promising Canadian hockey player, Cpl. Jack Fox, was reported killed in action with the Canadian Army overseas 10 years ago today. Fox had been captain and defenseman of Winnipeg Monarchs, Memorial Cup champions in 1937, and later was the property of Toronto Maple Leafs of the National Hockey League.

Navy Wrestling

Roy Speller defeated Dick Watson in the feature bout of the wrestling card staged at the Naden gymnasium Tuesday.

D. Patterson of the Y.M.C.A. defeated Earl Marshall also of the "Y." PO. Jimmy Goodman of R.C.N. defeated Benny Lougren, and Gunner Chingras of the Army defeated Leon Frechette of the Y.M.C.A.

Series to Start

McMorran's will meet Mount Tolmie Merchants in the first game of a best-of-three series for the Saanich and Suburban Basketball League's intermediate B boys' play-off championship at the Lake Hill Community Hall tonight at 8.30.

In the preliminary McMorran's Intermediate B girls will play an exhibition game with C. & C. Taxi of the Victoria and District Basketball League, starting at 7.30.

New Westminster Clubs Keep Amalgamated Basis

Victoria Shamrocks are sure to meet a strong New Westminster entry in the Inter-City Lacrosse League again this season.

It was reported yesterday that New Westminster's Salmonbellies and Adanacs will operate under the Commandos' banner for at least one more season.

Ralph Douglas, coach of the New Westminster entry last year, said that they hope eventually to return to their original separate identities. He added that last season's amalgamation was strictly on a one-year basis.

The clubs agreed, Douglas stated, that they weren't ready, yet, to field two teams. However, they are looking forward to the day when they can resume intra-city rivalry.

Chances of the two teams in Vancouver's amalgamation — Burrards and Richmond — ever appearing as such again seem slim, according to Johnny Cavallin, retired coach of the Combines, Mann Cup finalists last year.

Everybody seems to be happy with the present arrangement and the original names will probably just disappear, said Cavallin.

Better Support Needed For Special Puck Night

Tickets for Victoria Minor Hockey Benefit Night are going reasonably well but a lot more will have to be sold before the youngsters will derive substantial aid from the drive, Bill Davidson, publicity director, said yesterday.

A Victoria Minor Hockey Association meeting has been called for tomorrow at the home of President Ivan Temple, 2228 Bowker Avenue, to discuss final arrangements for the special night to be held at Memorial Arena next Monday.

The midget all-star team, which will oppose Kerrisdale in one of four games Monday, will receive blackboard instruction at the arena tonight. Any other members of the association interested are also invited to attend. The instruction will start at 7 p.m.

Line-ups for the Victoria and Nanaimo bantam all-star teams who will open program Monday were released yesterday.

Victoria—J. Whalen, B. Harmon, M. Young, T. Drysdale, L. Alexander, R. Lantz, J. Brockman, O. Barlow, B. Swetsky, G. Milner, R. Marshall, B. Yousil, S. Walker, J. Wilson, T. Simmons and F. Wooster.

Nanaimo—Bob Young, Jim Curran, Jerry Rolfert, John Wilson, Don Wheatcroft, Tom Pearock, Raymond Grandmain, Eric Beever-Potts, Billy Good, Bob Dunlop, Norman Wheakerell, Norm Aikins, Don Allan, Terry Robertson, Bill Willgress.

Victoria's midget all-star line-up: John Gittens, Walt Davis, Doug Sinnes, Pete Dawe, Bud Bryce, Art Pyfe, Noel Sexton, Steve Foster, Brian Erb, Allan Taylor, Bill Dawson, Harvey Gillis, Bill Foster, Ron Yousil, Binks, Dunc McCaig.

Choose Officers

Miss Mildred Mahoney was elected women's captain of the Royal Colwood Golf and Country Club at the women's annual election of officers Monday. Miss Margaret Mahoney was chosen as vice-captain.

Mrs. H. E. Brown was named secretary-treasurer and Mrs. Vic Painter was chosen as a member of the board-elect. Members elected to the committee were Mrs. T. W. Cotton, Miss Peggy Bagley and Miss Marion Kennedy.

W.I.L. Head Supports Fund

Bob Abel, left, president of the Western International Baseball League, paid flying visit to Victoria yesterday to aid Athletic Booster Club officials in their drive to save baseball for Victoria. Abel stressed that Victoria is one of best baseball towns in Northwest and other seven clubs in circuit are hoping drive to retain franchise will be successful. He stated that Tacoma interests have made bid for franchise, if drive fails, to replace franchise lost to Lewiston. Above, Frank Ireland, chairman of drive, shows latest figures to Abel and Reg Patterson, business manager of Victoria Athletics. Picture on magazine in foreground is of Gil McDougald, member of 1949 Athletics, who signed $12,500 contract with New York Yankees yesterday. Magazine carries full stories on McDougald and Archie Wilson, who will also play for Yanks this year. Wilson was member of 1948 Athletics.

Mazur, Long Spark Bisons

CINCINNATI, Jan. 23 (CP).—The Buffalo jinx operated again tonight and the Bisons, who haven't lost an American Hockey League game all season to Cincinnati, trimmed the Mohawks 3-2.

Buffalo got away to a 2-0 lead in the first period on goals by Stan Long and Eddie Mazur. Mazur's marker was deflected into the net off the stick of Ivan Irwin of the Mohawks.

Two goals by Bill Wylie of Cincinnati were offset when Mazur registered the winning goal in the third period.

Verbal Bout Continues Over Walcott's Defence

NEW YORK, Jan. 23 (AP)—Boxing commissioner Bob Christenberry and Manager Jack Hurley traded verbal punches at long range over Harry (Kid) Matthews today in a sideshow to the Jersey Joe Walcott squabble.

Meanwhile, the International Boxing Club arranged a Feb. 1 conference in Miami, Fla., to discuss Matthews' challenge to the champ's title defense. President Jim Norris of the I.B.C., Felix Bocchicchio, manager of Walcott, and Tom Tannas and Jake Mintz, co-managers of Ezzard Charles, will confer there.

DEADLINE FEB. 5

Christenberry gave Walcott until Feb. 5 to agree to a title defense and named Charles, from whom Walcott won the title, as the logical contender.

Bocchicchio and Hurley, manager of Matthews, would like to see their fighters meet first.

"You can get down a pretty good bet that Matthews will fight Walcott and it will be a 15-round championship fight," Hurley said in Seattle. "I wonder if Christenberry will recognize Harry as champion when he beats Joe?"

"No, I would not," said Christenberry, whose official title is chairman of the New York State Athletic Commission.

Hurley took a counter-punch at Christenberry for the latter's statement Tuesday that he did not consider Matthews a heavyweight title contender.

"It seems that Mr. Christenberry likes the same fight that the International Boxing Club monopoly wants — Joe Walcott and Ezzard Charles," Hurley told a reporter. "They are trying to shove that one down the public's throat."

Toggery Shop Sets Three League Marks

Toggery Shop, current leader in the Senior Tenpin League, set three new season records for the league while bowling at Gibson's Bowladrome Tuesday night.

New marks set by the teams were:

1—A new team three-game mark of 2,823. The former mark of 2,752 was held by Watson's Men's Wear.

2—A high team single of 1,001. The former record was 987 set by Strathcona Cafe.

3—A new individual single-game mark of 648 by Gordy Law. Roy Begg of Strathcona Cafe held the previous mark of 626.

Every member of the five-man team rolled scores of better than 500. Law led with 648, J. Howell had 575, J. Ferguson 568, R. Wilson 532, and A. Quinn 502.

MARATHON BOUT

Longest boxing bout on record, between Andy Bowen and Jack Burke at New Orleans in 1893, went 110 rounds lasting seven hours 10 minutes.

Efforts Repaid

GIL McDOUGALD

Former second baseman with Victoria Athletics in 1949, McDougald yesterday signed 1952 contract with New York Yankees for reported $12,500. New contract is more than double his 1951 salary, rewarding him for his efforts last season when he starred at both second and third bases and led Yanks in hitting to win rookie-of-year award. McDougald's contract represents $11,000 increase over what he received at Victoria in 1949. Yanks also signed catcher Yogi Berra, American League's most valuable player last year, to contract for an estimated $35,000 yesterday.

Fight Order Rouses Ire Of Champ

PORTLAND, Me., Jan. 23 (AP)—Jersey Joe Walcott said tonight that no one, save a challenger, will take away the title he fought more than 20 years to win.

Walcott described his struggle toward the heavyweight championship, which he's being prodded to defend.

He added: "And no one's gonna take it away from me outside a ring."

After talking to reporters in his Portland Exposition Building dressing room, Walcott clowned for four two-minute rounds with Jackie Burke of Pittsburgh before a chuckling audience of about 2,100 spectators.

Golf--- Here's How

By SAM SNEAD
Golf's Greatest Player-Teacher

In the backswing you swing the clubhead along the imaginary direction line from the green, for about six or eight inches. As your pivot gets under way the shoulder pivot joins in the every-thing-together movement. Then the pivot carries the clubhead inside the direction line. Notice that when the hands are nearing hip-high your left arm and club-shaft still form a straight line. Then, when the hands are hip-high, the cocking action of the wrist slowly starts but your hands do not reach the fully cocked position until you are at the top of the backswing. At that time your hands are head-high and directly above your right shoulder. When you're in that position your hips will have pivoted about 45 degrees from their position when you are addressing the ball and your shoulders will have pivoted about 90 degrees from their position at the address.

Fourth Kegler Awarded Cash At Gibson's

Len Parsons became the fourth Victoria bowler to benefit from the "bowl-for-cash" system now operating at Gibson's Bowladrome.

During open tenpin play Tuesday, Parsons rolled a 255 game to win himself $25.

Only tenpin bowlers have been able to cash in so far. Others to win were Nick Howard, Ken Munn and Walt Davis.

The offer is good for both fivepins and tenpins and applies to league or open play. Perfect games—450 for fivepins and 300 for tenpins—will earn the bowler $400.

There will be a $50 award for a 425 fivepin score or better and 275 or better in tenpins, and a $25 award for 400 or better in fivepins and 250 or better in tenpins.

Orville Burke Answers Winnipeg Writer's Blast

VANCOUVER, Jan. 23 (CP)—Football's Orville Burke had the answers today for sports editor Tony (Winnipeg Tribune) Allan.

In his column Monday Allan claimed that the Vancouver delegation at the Regina W.I.F.U. meeting had presented no evidence to show the progress made in raising finances and laying a foundation for a strong team.

Burke said the Regina meeting, which rejected Vancouver's application for conference membership, was told that:

"We were considering seven well-known coaches; had contracted 21 players and would likely have a park seating 11,000."

Burke added: "Allan had his facts mixed up like a dog's breakfast, and should have plugged in his hearing aid . . ."

Allan called the $25,000 bond posted by Vancouver a "piece of paper . . . without one cent of cash."

Burke explained the bond was underwritten by 25 of Vancouver's leading business men.

"If Vancouver had failed to fulfill its obligations they would have kicked in with $25,000."

Burke, who was a member of the three-man delegation at Regina, outlined other facts and asked:

"How much progress does Allan want?"

Late Selling Hits Stocks Off New Highs

TORONTO, Jan. 23 (CP).—Final-hour weakness today eased industrials from strong early gains and dropped western oils for a loss of almost two points from noon record highs.

Western oils matched industrials as they opened strongly and climbed to two successive [illegible] change's index. Support weakened abruptly, however, and most gains were eliminated.

Golds and base metals opened irregularly. Trading maintained the active pace of recent sessions as western oils continued to dominate exchange dealings.

Steels and refining oils led industrials with a wide list of fractional advances. Agricultures, foods, banks and miscellaneous issues drew firm support while papers, utilities, constructions and liquors held gains and losses in balance.

Western oil losses ranged from pennies to about 25 cents. Anglo-Canadian, Calgary and Edmonton, Model Oil, North Canadian, Scurry, Superior and United Oil closed lower.

Steamships Soar

MONTREAL, Jan. 23 (CP).—Late profit-taking weakened many early gains today but stock prices continued higher at the close.

Papers were ahead early in the session and held almost all gains at the close. Steels and miscellaneous industrials also finished higher.

Senior metals, senior oils and carriers mixed gains and losses after earlier firmness. Beverages and banks weakened.

Canada Steamships extended recent advances, jumping 2½ points to a new high of 62½. Shawinigan hit a new top of 44 before closing at 43 for a net gain of 1½.

Mining issues were mixed and trendless for the third consecutive session. Trading was not excessive and changes were generally held to a 25-cent limit. Western oils closed irregularly lower, after a firmer forenoon.

Pacific Strengthens

VANCOUVER, Jan. 23—Activity slackened considerably with comparatively little interest showing in oils. These were generally lower although there were some exceptions. Pacific Pete, Canadian-Atlantic group was stronger with Pacific up ⅜ at 11⅞ and Canadian Atlantic up 10 cents at 6.45.

Estella showed some strength in mines at 2.40, up 10 cents, and Kootenay Belle advanced 2 cents at .92.

Canadian Western Lumber gained ⅝ at 10½ and MacMillan and Bloedel also strengthened in line with eastern pulps and papers to 24¾, up ¼.

Support Fails

NEW YORK, Jan. 23 (AP).—Support for stock price levels was lacking in Wall Street and the market suffered its first setback since Jan. 15.

For about half the session selective strength of a few favorites, plus flurries of demand for aircraft and radio-TV issues, kept the list on a steady course.

But when pivotal groups like railroads, steels, oils, motors and chemicals began to soften, there was a rather general swing to the downside. Final losses ran to more than a dollar a share. Total transfers for the day were 1,670,000 shares.

The Associated Press average of 60 stocks declined 40 cents to $101.70. Rail and industrial components each dropped 50 cents. Utilities were up 10 cents.

London Subdued

LONDON, Jan. 23 (Reuters)—Further government warnings of the gravity of the sterling area economic situation subdued the stock exchange today.

Further profit-taking on the recent rise depressed German government loans, but there was a firmness to Peruvians on hopes of favorable news concerning the debt question.

Oils followed the prevailing trend and were dull. Profit-taking was also responsible for minor falls in Canadian dollar stocks.

Interest in mining dwindled. Copper shares moved against holders but Kaffirs were without decided trend.

LONDON, Jan. 23 (AP)—Stock closings: Babcock & Wilcox 47s 9d, Boots Pure Drug 31s, Canadian Pacific 67½, Central Mining £1 15/16, Consolidated Goldfields 48s, Courtaulds 42s 1½d, Hudson's Bay Co. 19½s, Imperial Chemical 42s, Imperial Tobacco 87s 6d, Metal Box 45s 3d, Mexican Eagle 23s 3d, Rand Mines 132s 6d.

Bonds: British 3½ per cent Consols 88½, British 3½ per cent War Loans 100⅝, British Fundings 4s 1960-1990 109.

New Cream Deodorant Proved

53% MORE EFFECTIVE

Safely Stops Perspiration 1 to 3 Days

● Doctors now find that new creamy Arrid is 53% more effective than any other leading deodorant in keeping underarms dry. They find that no other deodorant compares with Arrid in stopping perspiration and odor. That's why more Canadians use Arrid every day than any other deodorant. Don't be half-safe. Only new Arrid gives you this exclusive 5-way protection.

1. **Safely stops** perspiration 1 to 3 days — is 53% more effective.
2. **Saves your clothes** from stains and clinging odor.
3. **Deodorizes instantly** on contact — keeps you shower-bath fresh up to 48 hours.
4. **Creamy!** Contains Creamogen — won't dry out.
5. **Antiseptic.** Safe for skin.

DON'T BE HALF-SAFE. USE ARRID—TO BE SURE!

Review of Civil Defense Carried Out at Duncan

DUNCAN, Jan. 23.—A full-scale review of civil defense work in the area, and completion of the organization for the future was conducted at a meeting of the civil defense control council in North Cowichan Municipal Hall Tuesday night.

Reeve A. E. Beasley, chairman, presided.

Col. J. B. Cochrane, local co-ordinator, outlined the establishment as it has been set up so far.

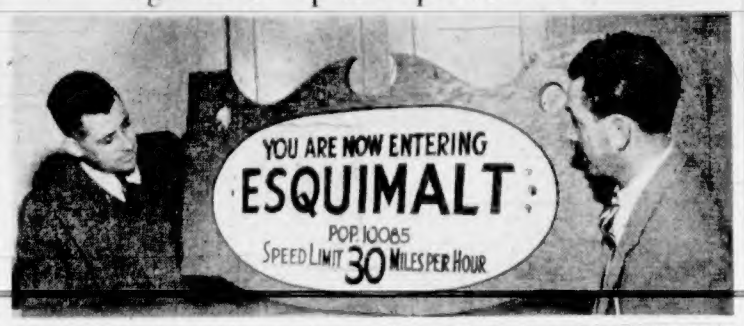
Council approved the appointment of Col. R. M. Lendrum, principal of Cowichan High School, as director of training and operations.

Auxiliary police will be under the temporary direction of Sgt. T. D. Brunton, head of the Duncan R.C.M.P. detachment. A. W. Jack, vice-chairman of the Red Cross Society and head of the Red Cross disaster committee, will be in charge of welfare under the civil defense set-up. Ambulance and rescue committee have yet to be completed. Communications, telegraph, telephone and radio, will be controlled by M. A. Kinch, plant manager of the B.C. Telephone Co. in Duncan.

Col. Cochrane announced that training of 30 auxiliary police will start Feb. 5 in the Duncan police station. At this meeting Sgt. Brunton will give an outline of the course and students will be formally enrolled as civil defense workers.

Col. Cochrane recommended the decentralization of control as much as possible, and the council authorized him to set up operating establishments in Chemainus, Lake Cowichan, Mill Bay and other detached points, all of which will be co-ordinated and directed by Col. Cochrane.

Signs to Go Up at Esquimalt Border



Five signs identical to the one shown above will be placed at the main entrances to Esquimalt municipality. W. J. Edginton, assistant superintendent of works, and J. R. Findlay, right, display the sign, authorized by last year's council. Signs will be hung from high metal standards, holes for which have already been dug. Final erection will take place with clearing weather.—(Colonist photo by Bud Kinsman.)

Court Rejects William Russell Appeal

Appeal Court yesterday dismissed the appeal of William Edward Russell, 41, of 3235 Shelbourne Street, against conviction on a charge of retaining stolen goods.

An appeal against a one-year sentence will not be made, said Russell's counsel, J. Ronald Grant. Judgment was delivered by Mrs. Justice C. H. O'Halloran.

Russell was convicted last autumn by an Assize Court jury. His brother is serving a seven-year prison sentence for stealing more than $50,000 worth of [illegible] from Greater Victoria homes.

The jury's verdict was perverse, and conviction was solely on the criminal character of the appellant's brother, Mr. Grant told the court.

He said there was no evidence the accused had knowledge the goods he received from his brother were stolen.

Judgment was that the court did not accept the story as a reasonable one and that the jury was entitled to come to the same decision.

Crown counsel was A. D. McPhillips.

Whisker Speaks in Duncan

M.L.A. Asks Support For Forest Licenses

DUNCAN, Jan. 23.—Andrew M. Whisker, M.L.A. for Cowichan-Newcastle, was guest speaker at the 43rd anniversary dinner of the Duncan Chamber of Commerce Tuesday night in the Commercial Hotel.

He urged the fullest possible support for a forest-management plan to preserve the timber wealth of the province, particularly as it related to the economic welfare of Vancouver Island.

"Only by a system of forest management, above party and above politics, can vast areas of the Island be prevented from becoming waste lands," he said. "You must see that the wealth from the forests of the area stays in the area. The forest industry must have public support and public understanding.

"I do trust that the businessmen of Duncan will study the question of forest management in B.C., and do their best to see to it that all timber that can possibly be hauled into the Lake Cowichan area be manufactured there to the fullest possible extent. We must keep the timber from going to the west coast through the competitive channels of big lumbering industries, and depriving this district of that wealth," he said.

E. M. Waldie, president of the Chamber of Commerce, presided over the gathering of 80 guests.

At a business session of the chamber, means of setting up banking facilities for Saturday nights and holiday week ends was discussed. A "night safe" was proposed, but this was stated to be quite costly.

A New Neighbor Greeting Car being started in the area has the full support of the chamber.

At the next meeting the members will discuss store hours and closing days. It is proposed to have particulars of store hours printed on cafe menus in all towns on the Island, so that travelers will know when to call on merchants.

The chamber will ask the postal authorities to make a change in names of Duncan and Duncan Bay to avoid considerable confusion which the similarity now causes.

The city council will be asked to change some street names which it was stated have been the cause of considerable fire hazard. Garden, Garnet and Godden are so similar that the fire department on occasions has gone to one or the other when the fire was not on that street. In such cases the police have to chase and re-route the engines.

Policy of Immigration Blamed For Canadian Growing Pains

ON THE LABOR FRONT

By BILL MAVOR

The Canadian immigration program is the main cause of the nation's growing pains, according to an article in the Trainman News.

The report points out that there is agreement on need for immigration but that differences of opinion arise on the more immediate program and its speed.

The article states that "with the usual seasonal ups and downs of employment increased this year by industrial lay-offs, immigrants landed within the past weeks faced a tight labor market."

The newcomers have been channeled to jobs through 10 camps at various points across the country. When jobs were immediately available their stay at centres averaged 10 or 15 days. With fewer jobs available their stay may be lengthened into weeks.

"It is not surprising that a feeling of dissatisfaction and frustration has bubbled up," the article states.

Most had been accustomed to a worse life than that in the location centres but they expected something better. They had seen colored moving pictures of life in Canada, shown by Canadian immigration authorities, the report adds.

There have been some reports in the federal capital of differences of opinion between the labor and immigration departments, some of the former officials feeling that the immigration people have been over-enthusiastic in their efforts to bring new people to Canada, the report continues.

"In the broad sense there is very little difference in opinion anywhere in Canada on the question of immigration. Practically everyone holds the view that from a long term position immigration is a necessity. The vast expanse of land and resources and comparatively small population make it essential."

Differences of opinion rise on the more immediate program, and particularly on the speed with which the country can assimilate new citizens at the moment. Two of the main aspects of the problem are jobs and houses. During 1951 a record 150,000 immigrants were admitted and it was not until the year end that jobs became scarce and difficulties arose, the article adds.

It is not surprising that the program has been slowed, at least until the spring brings more job opportunities, it concludes.

* * *

Immigration of another sort is bothering the Vancouver Island District Council of Carpenters (A.F.L.-T.L.C.).

Victor Midgley, carpenters' international representative, R. N. Strachan, provincial council president, and William Page, western representative, will meet with the union's Courtenay local tonight to discuss alleged importation of about 26 non-union carpenters from Alberta to work at Comox airport.

District council Sunday authorized full use of its economic resources to rectify the situation, it was announced. Some Courtenay carpenters were reported to be unemployed.

Council claims neither the national defense department nor the labor department is apparently taking any action to require the men to meet local conditions. Aside from being non-union, the new workers are operating a 54-hour week, it was reported.

* * *

SINGLE EMPLOYEE

With many recommendations expected from the legislative inquiry of the Industrial Conciliation and Arbitration Act, Victoria union officials are hoping that at least one will deal with certification of a union as bargaining agent for a single employee.

The Labor Relations Board recently was informed by Supreme Court that its practice of issuing certifications covering single employees was wrong. The I.C.A. Act reads that a unit means a group of employees when dealing with certification.

The board's appeal against the ruling was lost, and it is without power to change the act.

J. A. Dukowski Has Operation For Appendix

Next meeting of the Memorial Arena commission may be delayed a few days owing to the absence of manager J. A. Dukowski, who underwent an appendix operation Tuesday.

Hospital authorities say Mr. Dukowski's condition is good.

Commissioner Leonard Woodhouse and newly-appointed member H. B. Olson will probably be present for the next meeting.

It is expected a new commission chairman will be elected soon to replace J. Carl Pendray, who recently resigned.

Alberni Liberals to Ask End to Forest Licenses

PORT ALBERNI, Jan. 23.—Alberni District Liberal Association, will urge the British Columbia government to stop granting forest management licenses.

The association will further urge the government to revise Section 33 of the Forest Act in order that direct control of the forests will remain in the hands of the Crown.

It was pointed out at the annual meeting of the association that the present interpretation and administration of the forest management license threatens the livelihood of small operators and their secondary services by tending to place control of the forests in the hands of a few large companies.

The preamble to the resolution asserted that small operators cannot possibly participate in the present forest management license scheme because of prohibitive costs of re-location, limited capital, and serious long-term restrictions and stipulations in the management license plan.

It further said that the present scheme makes no provision for the possibility of the creation of new communities in the large areas that are now totally undeveloped.

Midland Choir To Sing Here

The Fremont, Neb., Midland College Choir of 50 young voices will be heard at 8 tonight in Metropolitan United Church, Pandora and Quadra.

Under director James S. Vail, the group will give a program consisting of: "Now Let Every Tongue Adore Thee," by Bach; Leisring's "Let All the Nations Praise the Lord"; "Sanctus" (from the Mass in B minor), Bach; "From Grief to Glory," and "Built on a Rock," both by F. M. Christiansen; "Light Celestial," by Tschaikowsky; "Go to Dark Gethsemane," by T. Tertius Noble; "Make Me, O Lord, Pure in Heart," Brahms, and "God's Son Has Made Me Free," by Grieg.

Talent Quest Monopolized By Sidney

Two Sidney entertainers won top honors in this week's Talent Quest show at the Club Smoco.

William Fleming won first place with his saxophone playing, and Lowell Campbell came second with some fast work on an accordion.

The talent quest series, sponsored by the Associated Canadian Travelers and the Solarium Junior League, is held every Monday. It will end April 14.

Under a novel system of judging, winning contestants are grouped into two sections. The first division winner will receive a $150 scholarship, and the second division winner will get a free trip to Hollywood.

Winner in the first division is chosen by a board of adjudicators, and those in the second by popular vote.

Naturalists Bask in Sun At High School

Victoria naturalists last night went through S. J. Willis Junior High School doors and left behind Victoria's worst snowstorm of the winter for the sunny coast of California.

The sunny coast, crammed with wildlife of all kinds, was on the movie screen, through the medium of the color camera of Laurel Reynolds, Piedmont, Calif., naturalist and lecturer.

Sometimes taken at considerable risk to life and limb, Mrs. Reynold's reels not only recorded the wildlife of the rocky California sea coast, but moved through Mexico to Puget Sound, and brought a bewildering array of animals and birds into close focus for the 350 members of the Victoria Natural History Society and the National Audubon Society.

Leonard Hall, Missouri naturalist-cameraman, is the next lecturer scheduled. His films on U.S. national parks will be shown Feb. 18.

Uncle Wiggily Story - - -

By Howard Garis

UNCLE WIGGILY GOES COASTING

Chief the police dog stood on the front steps of Uncle Wiggily's hollow stump bungalow in the middle of the night.

"You laughed a few moments ago, didn't you, Chief?" asked Uncle Wiggily.

"Yes, I laughed," admitted the police dog.

"Do you mind telling me why you gave me the merry ha! ha! if you please?" the rabbit gentleman asked.

"I laughed, Uncle Wiggily," Chief barked, "because you told me that you heard the Christmas toys singing, making music and having a party. You said that, didn't you?"

"Yes, I did," admitted Mr. Longears. "And you laughed at me and said Nurse Jane and I had dreamed it, didn't you?"

"Yes, that's what I said," admitted Chief.

"Then I want to ask you this question," went on Mr. Longears. "You said you and Sergeant Bill were cruising around in the squad car. You also said that when you reached my bungalow you heard the sounds of singing and dancing and you stopped to see what sort of a party I was giving. Did you say that, Chief?"

"Yes, I said that, Uncle Wiggily," admitted the police dog. "Sergeant Bill and I heard the music and singing so we stopped. But what is the main question, Uncle Wiggily?"

"The main question is this, Chief. If you also heard the toys singing and dancing and making music, were you dreaming also?"

For a moment Chief could not answer. Then he said:

"No, I was not dreaming, Uncle Wiggily. Bill and I heard music. We really heard it."

"Then it must have happened, Chief, if all of us heard it and none of us is dreaming. Now what have you to say?"

Chief flipped his ears back and forth. He was thinking hard. Then he said:

"Something mysterious must have happened to the Christmas toys, Uncle Wiggily. Though they are quiet enough now, it must have been that, in some magical manner, they came to life and had a party. But they are all quiet enough now."

"Yes, they are," said Uncle Wiggily. He and Nurse Jane and Chief looked at Too Too the clown, at Jumping Jack and at the tin alligator. Not a toy moved. "Do you want to say anything more, Chief?"

"No, Uncle Wiggily. I have nothing more to say. We didn't any of us dream. It must have been real. Come on, Bill. Let's go!"

Chief and Sergeant Bill drove away in the squad car. Uncle Wiggily and Nurse Jane went upstairs. The toys all seemed to be asleep.

Was it all a dream, or did the toys really come to life? I don't know. What do you think? All I can tell you is that when in the morning Uncle Wiggily and Nurse Jane awakened, they were both in their beds. And the toys were still and quiet in the Christmas-tree room. It's a mystery to me.

Uncle Wiggily and Nurse Jane talked about it after the rabbit children had hopped away to recite their lessons to the Lady Mouse Teacher in Hollow Tree School.

"What do you think, Uncle Wiggily?" asked Nurse Jane as she got ready to give the breakfast dishes their bath. "What do you think?"

"I think I am going coasting downhill," answered the rabbit gentleman. "I will think about this when I go coasting down Snow Hill on a sled. I may have an adventure that will explain it all. Did Too Too the clown or Jumping Jack do anything this morning?"

"No, Uncle Wiggily. I looked at them in the Christmas-tree room. They were as quiet as so many mice. I hope you have fun coasting."

"I hope so myself," answered Mr. Longears. He took Buster's sled from the garage and started for Snow Hill.

There was fine coasting on Snow Hill. And what happened there I will tell you tomorrow if the snow shovel will dig some holes in a flower pot to plant horse chestnuts so little ponies will grow from them to give the spring robins rides around the block.
